Certainly! Here are the step-by-step instructions for the project:

Setting Up the Internshala Assignment:

1. Download the Assignment Zip:
   - Click on the following link to download the assignment zip folder: [Google Drive Link](
https://drive.google.com/drive/folders/1zmwHWBmc2IdGZH0ReiXbqWZ2ngxzkjfu?usp=sharing).

2. Unzip the Folder:
   - Locate the downloaded zip folder (usually in your "Downloads" directory) and unzip it using your preferred unzip tool. This will create a folder named "Internshala Assignment."

3. Copy to XAMPP's htdocs:
   - Navigate to your XAMPP installation directory (e.g., `C:\xampp\htdocs` on Windows or `/Applications/XAMPP/htdocs` on macOS). Copy the entire "Internshala Assignment" folder and paste it in the "htdocs" directory.

4. Import SQL Database:
   - Open your web browser and access the XAMPP control panel by entering "http://localhost/phpmyadmin" in the address bar.

   - Log in to phpMyAdmin with your username and password.

   - Click on "New" in the left panel and create a new database. You can name it as you prefer, e.g., "Car_Rental_Agency."

   - Select the newly created database and click on the "Import" tab.

   - Choose the SQL database file from the "sql-db" folder within the "Internshala Assignment" folder. The file name is usually something like "Car_Rental_Agency.sql." Click "Go" to import the database.

5. Run the Project:

- Open a web browser and enter "http://localhost/Internshala%20Assignment/index.php" in the address bar. This will take you to the login page of the Car Rental Management System.

6. Default Usernames and Passwords:
   - You can use the following default usernames and passwords to log in:

   - For Customers:
     - Username: customer1
     - Password: customer1

     - Username: customer2
     - Password: customer2

   - For Agencies:
     - Username: agency1
     - Password: agency1

     - Username: agency2
     - Password: agency2

7. Hosted URL (Optional):
   - If you encounter any issues with the local setup or prefer to use a hosted version, you can access the project online at [Car Rental Agency on 000webhostapp.com](https://carrentalagency0021.000webhostapp.com/index.php).

8. Additional Notes:
   - For further instructions or assistance, please refer to the attached text file or ramswami0021@gmail.com.

Please make sure to follow these instructions carefully to set up and run the Car Rental Management System on your local server or the provided hosted URL. If you encounter any issues or have questions, refer to the attached text file for additional information and contact on ramswami0021@gmail.com
